Supply chain management is regional, national and global - it is everywhere. Without it, the wheels of industry and the economy would grind to a halt. Many aspects of our day-to-day lives depend on the ability to manage supply chains successfully within a global economy. Studying supply chain management empowers you to keep the wheels turning smoothly -- both in everyday situations and in times of crisis. Whatever your relationship to the supply chain, gaining a better understanding of the flow of production and distribution will empower you to Collaborate, improve quality control, keep up with demand, reduce costs, mitigate risks. This is a mandatory skill for both Private & Public industries. To keep this importance in mind, BIM is going to offer a 3-months long **Advanced Certificate Course on Supply Chain Management (ACSCM)** in our Chattogram campus.
